

Research Proposal Form

Student Name: Truong Quoc Bao

Student Number: GCH200633

Tutor: Nguyen The Lam Tung

Date:

Unit 13: Computing research project

Propose title: What is the positive impact digital transformation on the workplace?

Section One: Title, objective, responsibilities

Research question:

What are the ways digital transformation affects the workplace?

Objectives

I want to learn:

- What is digital transformation in general?
- What is the digital workplace?
- How many ways to apply digital information to the workplace?
- What are the benefits of digitalizing the workplace?

Section Two: Reasons for choosing this research project

Reasons for choosing the project

- In today's era, when the world has been approaching 4.0 technology, the digital transformation has had a great impact in all aspects of life. For workplaces when applying digital transformation, we do not waste time on side jobs such as searching for documents, running to another room to exchange work, asking for signatures, printing papers, etc. We can do it all with digital transformation techniques quickly and efficiently. We haven't spent too much time on a job since.
- Because digital transformation is an irreversible global trend, Vietnam now has the potential to accomplish its lofty ambitions. Vietnam's digital economy has been extremely self-developed, and relatively quick, with solid information and telecommunications infrastructure, wide coverage, and high user density, and Vietnamese people are enthusiastic about technology and like using it. Technology is among the most advanced in the area, and Vietnam's population is youthful, reasonably well-educated, and diligent, allowing Vietnamese people to adapt quickly.
- The topic is very practical and direct to me because change is happening so quickly. Technological advances have and will affect human society. What's new about digital transformation is the speed of change, in fact digital transformation will affect a large part of our society. A number of new digital technologies that have been widely mentioned many years ago, now, have begun to make a rapid and powerful transformation, they have been and will affect the following areas:
 - The way we work.
 - The skills we must equip.
 - Workspace (currently, transformed by: computers, mobile phones and cloud technology).

Section Three: Literature sources searched

The initial sources which could help me to answer those questions:

Title: Digital Transformation: 6 Effects On The World Of Work And Employees

<https://www.digital-adoption.com/digital-transformation-6-effects-on-the-world-of-work-and-employees/>

Title: The complete guide to digital transformation in the workplace

<https://www.avocor.com/blog/the-complete-guide-to-digital-transformation-in-the-workplace/>

Title: The Digital Workplace Transformation Issues Essay

<https://ivypanda.com/essays/the-digital-workplace-transformation-issues/>

Title: How Technology and Digital Transformation Impacts Today's Workplace

<https://talentculture.com/technology-digital-transformation-impacts-todays-workplace/>

Section Four: Activities and timescales

1. Collect materials relating to research's question and objectives
2. Complete research proposal
3. **Milestone 1:** Get feedback from the Tutor about the research proposal
4. Produce project plan
5. Writing literature review and represent the findings in term of hypothesizes
6. Check project progress: research proposal, plan, literature review
7. Preparation for primary research (to confirm the findings in literature review or clarify the questions might arise after the literature review)
8. **Milestone 2:** Get feedback from the Tutor about the plan of primary research.
9. **Milestone 3:** Get feedback from the Tutor about the result of literature review
10. Conducting the primary research
11. **Milestone 4:** Represent the findings in primary research and get feedback from Tutor
12. Writing assignment 1 which contains LO1, LO2
13. **Milestone 5:** Submit assignment 1 -Draft
14. **Milestone 6:** Submit assignment 1- Final
15. Writing Assignment 2 which contain LO3, LO4
16. **Milestone 7:** Submit assignment 2 -Draft
17. **Milestone 8:** Presentation- put everything together.
18. **Milestone 9:** Submit assignment 2- Final

Activities to be carried out during the research project (e.g. research, development, analysis of ideas, writing, data collection, numerical analysis, tutor meetings, production of final outcome, evaluation, writing the report) and likely durations:

Milestone one:

Target Date (set by tutor)

Milestone two:

Target Date (set by tutor)

Section Five: Research approach and methodologies

- Research process: sequential
- Research classes: quantitative and qualitative
- Research methods: case study, survey

Type of research approach and methodologies you are likely to use, and reasons for your choice:

What your areas of research will cover:

Comments and agreement from tutor

Comments (optional):

I confirm that the project is not work which has been or will be submitted for another qualification and is appropriate.

Agreed: (Name) (Date)

Comments and agreement from project proposal checker (if applicable)

Comments (optional):

Agreed: (Name) (Date)
